

VET STUDENT APPLICATION FORM

Thankyou for your interest in applying for work placement at Snowy Vets. Due to the large number of students wanting placement, we ask everyone to complete the following application to help us get to know you. From here we select students that we think will suit our high paced busy workplace that is our mixed animal practice. The following items must be submitted with your application:

- Cover Letter and Resume
- Following Questionnaire
- Any paperwork from your University

Once your application has been submitted, a member of the Snowy Vets team will be in contact with you in regards to coming in for an interview. We ask all our applicants to come and meet with us at our clinic in Cooma, to chat about expectations and have a tour around our facilities. If you are unable to travel to our clinic, we can organise a *Skype* or *Zoom* session.

It's important to always wear appropriate clothing in a veterinary clinic, so please come prepared with enclosed footwear, long thick pants (no leggings etc) and a collared shirt. You may be asked to join in with treatment of patients to demonstrate your skills.

Although we aim to make your experience with us as safe as possible, animals can be unpredictable and dangerous especially when nervous. We ask all students to be honest with their applications to help us tailor your work placement program.

Student Details

First Name: _____ Surname: _____

DOB: _____ University: _____

Course: DVM / BVS / Other (please circle) Year: _____

Do you have any pets? If so tell us about them!

Have you had placement at any other clinic? If so, tell us what types of clinics you have already worked in.
