

WORK EXPERIENCE APPLICATION

Thankyou for your interest in applying for work experience at Snowy Vets. Due to the large number of students wanting placement, we ask everyone to complete the following application to help us get to know you. From here we select students that we think will suit our high paced busy workplace that is our mixed animal practice.

The following items must be submitted with your application:

- ❖ Cover Letter and Resume
- ❖ Following Questionnaire
- ❖ Any paperwork from your school

Once your application has been submitted, a member of the Snowy Vets team will be in contact with you in regards to coming in for an interview. We ask all our applicants to come and meet with us at our clinic in Cooma, to chat about expectations and have a tour around our facilities. It's important to always wear appropriate clothing in a veterinary clinic, so please come prepared with enclosed footwear, long thick pants (no leggings etc) and a collared shirt. You may be asked to join in with treatment of patients to demonstrate your skills.

Although we aim to make your experience with us as safe as possible, animals can be unpredictable and dangerous especially when nervous. We ask all students to be honest with their applications to help us tailor your work experience program.

Student Details

First Name: _____

Surname: _____

DOB: _____

Highschool Student? Y / N

Other: _____

Training Provider:

Name of Provider: _____

Primary Contact: _____ Ph: _____

Do you own any pets? If so, tell us about them!

Have you had an experience at previous veterinary hospitals or treating sick animals?

Are you comfortable being around animals such as horses, sheep and cattle?

What is your plan for future studies? Are you looking at Veterinary Nursing or Veterinary Medicine as an option?
